## EDUCATION/TRAINING

### Computer Programmer (Co-op) Diploma - Georgian College, Barrie
MAY 2018 TO AUGUST 2020

- Enthusiastic learner in areas of computer programming, web development and designing data-driven systems.
- Excelled in programming languages such as HTML/CSS, PHP, ASP.NET, C#, Java, JavaScript and Arduino.
- Hosted a MVC model website using Microsoft Azure as a part of a final project.
- Created a secure login system using sessions and retrieving data from a database using PHP and SQL.

### 3-day C# Programming Workshop by Microsoft - Kerala, India

- Familiarized the Object Oriented Programming (OOP) concept: Polymorphism, Inheritance, Abstraction and Encapsulation.
- Built a multi-platform calculator app using Visual Studio as a final project.

## EXPERIENCE

### IT Desktop Officer (Co-op) – Ministry of Government and Consumer Services, Toronto, Canada
SEPTEMBER 2019 – PRESENT

- Prepare detailed technical specifications for documentation, evaluate tendered solutions and recommend vendor selection, using software tools to document technical designs and solutions.
- Assist with the preparation of reports, presentation material and evolving Infrastructure Services for the current and future states, and technology roadmaps.
- Use and maintain software to access data from databases and other sources to generate regular and ad hoc reports utilizing tools such as Power BI to develop dashboards.

### Customer Associate - Market ONroute, Barrie, Ontario
SEPTEMBER 2018 – PRESENT

- Assisted to increase overall sales and became a bestselling associate for three months.
- Forwarding and escalating inquiries to relevant teams and departments.
- Spearheading new recruits to use their full potential.

### Data Analyst Internship - Varsha Info-Services Inc., Brampton, Ontario
FEBRUARY 2019 – SEPTEMBER 2019

- Managed master data, including creation, updates, and deletion.
- Processed confidential data and information according to guidelines.
- ETL (Extract, Transform, and Load) functions on database using Pentaho Data Integration tool.
